

# Fast, Neat, Worry-Free End of Story.

Well, not quite. But our 110 IDC product line does add another chapter to our book of success stories.

Read this chapter and you'll learn how CSI/Suttle's complete line of Category 5 110 IDC blocks and patch cords make short work of your high-speed data installations and moves and changes. It's a broad product line to give you the most flexibility. And it's all backed by CSI/Suttle's Fifteen-Year Warranty.\*

Want a copy? Give us a call. We'll send you the whole book.
